**\$2,571.95****NASCO, KERi™ COMPLETE NURSING SKILLS MANIKIN**

KERi™ features a non-age, realistic adult appearance with full-body articulation, lifelike flexibility, and a convertible gender design. Ideal for patient care, positioning, and clinical skills training across nursing programs.

- Includes OBRA-required training features.

**Includes:** full-size adult manikin (female with male conversion), simulated wounds, internal fluid reservoirs, and anatomical sites for injection, catheterization, ostomy care, and more.

**Ship Weight:** 32 lbs.

**Dimensions** (Inches): 37 x 24 x 11

**SKU:** 14160451

**\$14,454.95****NASCO, TERi™ ELDERLY PATIENT SKILLS TRAINER**

This full-body elderly care manikin offers realistic anatomy, weight distribution for lifelike lifting, and a wide range of nursing and medical procedures. Ideal for advanced clinical and daily living skills training.

**Features enhanced aesthetics and dual-gender capability.**

**Includes:** passive range of motion, carotid pulse, CPR feedback, IV/IM sites, NG tube procedures, airway management, catheterization (urethral and suprapubic), ostomy care, and grooming/hygiene training.

**Ship Weight:** 80 lbs.

**Dimensions** (Inches): 44.5 x 22.5 x 22.5

**SKU:** 14160483

**\$10,272.95****NASCO, DANI™ TEEN/YOUNG ADULT ADVANCED MANIKIN**

DANI™ is a realistic teen/young adult manikin designed for trauma, nursing, and advanced clinical skills training. Features enhanced aesthetics, tattoo sleeve, piercings, and lifelike skin for immersive simulation.

- **Available Skin Tones: Light and Medium.**

**Includes:** trauma and wound care features, airway management, CPR with feedback, grooming/hygiene tasks, IV/IM access, catheter care, NG and G-tube procedures, sexual assault genitalia, and full range of motion for positioning and lifting.

**Ship Weight:** 80 lbs.

**Dimensions** (Inches): 45 x 26 x 23

**SKU:** 14160920

**\$833.95**

#### Nasco, Life/form® Adult Venipuncture and Injection Training Arm

The Life/form® Advanced Venipuncture and Injection Arm offers advanced, lifelike training for IV starts, venipuncture, and intramuscular injections. Features realistic skin, palpable veins, and flashback.

- **Available Skin Tones: Light , Medium and Dark.**

**Includes:** replaceable skin and veins, simulated blood, syringes, IV set, butterfly set, carry case, and instructional manual.

**Ship Weight:** 22 lbs.

**Dimensions** (Inches): 35 x 12 x 6

SKU: 14162399

**\$968.95**

#### Nasco, Advanced Venipuncture and Injection Arm

The Life/form® Advanced Venipuncture and Injection Arm simulates realistic training for IV starts, venipuncture, and injections, featuring rolling veins, palpable "pop," and true-to-life flashback.

- **Available Skin Tones: Light , Medium and Dark.**

**Includes:** arm with replaceable skin and veins, external fluid bag system, simulated blood, carry case, and instructional guide.

**Ship Weight:** 20 lbs.

**Dimensions** (Inches): 33 x 12 x 8

SKU: 14160449

**\$1,479.95**

#### Nasco, Life/form® Blood Pressure Simulator

The Life/form® Blood Pressure Simulator allows students to practice accurate blood pressure assessment, with adjustable systolic/diastolic values and lifelike Korotkoff sounds. Features a palpable radial pulse and electronic control unit for realistic training.

- No special stethoscope required.

**Includes:** arm with speaker, control unit, sphygmomanometer, manual, and carry case.

**Ship Weight:** 10 lbs.

**Dimensions** (Inches): 23 x 4 x 4

SKU: 14160476

**\$1,895**SIMULATION  
ESSENTIALS**SE28 AXIS NON FUNCTIONING HEADWALL**

The SE28 Axis transforms any classroom into a realistic clinical training space. Featuring simulated gas outlets and functional suction, it's perfect for hands-on nursing instruction in a safe, controlled setting.

- **Includes a 5-Year Limited Warranty.**

**Includes:** 28" headwall, oxygen and air flowmeters (15 LPM), analog vacuum regulator, suction canister, humidifier bottle, nasal cannulas with tubing, suction tubing.

**Configuration:** 1 DISS air outlet, 1 DISS oxygen outlet, 1 DISS vacuum outlet, 2 non-functioning duplex receptacles, 1 slide rail, 1 vacuum switch.

**Ship Weight:** Varies

**Dimensions (Inches):** 28 W x 4 D x 12.5 H

SKU: 14163141 |

**\$4,895**SIMULATION  
ESSENTIALS**SE42 AXIS SIMULATION HEADWALL SYSTEM**

The SE42 Axis is a comprehensive simulation headwall system designed for real-world clinical training. Featuring silent compressor technology, simulated oxygen/air, and functional suction, it brings high-impact realism to any classroom.

- **Includes a 5-Year Limited Warranty.**

**Includes:** 42" headwall, oilless silent air compressor, DISS 10' hose with fittings, oxygen & air flowmeters (15 LPM), analog vacuum regulator, suction canister, humidifier bottle, nasal cannulas with tubing, and suction tubing.

**Configuration:** 1 DISS air outlet, 1 DISS oxygen outlet, 1 DISS vacuum outlet, 1 DISS compressed air outlet, 2 duplex receptacles, 1 slide rail, 1 vacuum switch.

**Electrical:** 110V Standard Outlet

**Ship Weight:** Varies

**Dimensions (Inches):** 42 W x 4 D x 12.5 H

SKU: 14158543 |

**\$1,479.95**SIMULATION  
ESSENTIALS**SE42 AXIS NON FUNCTIONING HEADWALL**

The SE42 Axis Non-Functioning Headwall offers an affordable way to bring realism to nursing education. Simulated gas outlets and functioning suction give students hands-on experience in a safe, adaptable training environment.

- **5-Year Limited Warranty.**

**Includes:** 42" headwall, oxygen & air flowmeters (15 LPM), analog vacuum regulator, suction canister, humidifier bottle, nasal cannulas with tubing, and suction tubing.

**Configuration:** 1 DISS air outlet, 1 DISS oxygen outlet, 1 DISS vacuum outlet, 2 non-functioning duplex receptacles, 1 slide rail, 1 vacuum switch.

**Ship Weight:** Varies

**Dimensions (Inches):** 42 W x 4 D x 12.5 H

SKU: 14160051 |

\$1,317.50

#### HSI, NON-FUNCTIONAL SLIMLINE TRAINING HEADWALL

The Non-Functional Slimline Headwall provides the realistic look of a patient room without the cost of gas simulation. Ideal for labs focused on layout and workflow, it enhances simulation environments with a clean, professional aesthetic.

- **Optional add-ons available for customization.**

**Includes:** standard slimline unit with optional non-functional nurse call, code blue, over bed lights, vacuum regulators, and vacuum canisters.

**Mounting:** Secures easily to existing wall structure

**Electrical:** Optional wiring available

**Ship Weight:** Varies

**Dimensions (Inches):** 52 W x 4 D x 10 H

SKU: 14158492 |

\$4,495

#### HSI, MOVEABLE COGENT™ TRAINING HEADWALL

The Moveable Cogent™ Headwall delivers simulated oxygen, air, and vacuum by simply plugging into a standard electrical outlet—no installation required. Designed for flexible simulation, it offers a realistic clinical experience with the freedom to move between beds and spaces.

- **Ideal for labs with limited space or undergoing renovations.**

**Includes:** locking casters (2 fixed, 2 swivel), electrical power, and integrated gas simulation system.

**Configuration Options:** Single or dual-sided

**Available Add-ons:** Non-functional nurse call, code blue, erase board, medical gas flowmeters, vacuum regulators, and vacuum canisters (sold separately).

**Ship Weight:** Varies

**Dimensions:** Varies by configuration

SKU: 14158493 |

\$3,495

#### HSI, COGENT™ AXIOM PRIVATE VERTICAL SIMULATION HEADWALL

The Cogent Axiom™ is a compact, self-contained training headwall equipped with a quiet vacuum pump and compressor. Designed for easy wall mounting, it delivers hospital-grade realism without the cost of a centralized system.

- **Ideal for simulation labs with limited space or renovation constraints.**

**Includes:** DISS air, oxygen, and vacuum outlets, vacuum bottle slide, red & ivory duplex receptacles, timer switch, and 6' power cord.

**Ship Weight:** Varies

**Dimensions (Inches):** 21 W x 36 H x 6 D

SKU: 14158496

\$890.38

### BD, Alaris™ 8015 Point-of-Care Unit (PCU)

The Alaris™ 8015 PCU is a modular infusion system designed for adult, pediatric, and neonatal care. As the core of the Alaris platform, it integrates with pump and monitoring modules to streamline care and enhance training realism with a consistent interface.

- **Ideal for educational simulation and infusion training.**

**Compatible Modules:** Alaris™ 8100 IV Pump, 8110 Syringe Pump, 8120 PCA Pump, 8300 EtCO<sub>2</sub> Module

#### **Configurations Available:**

- Standard (No Drug Library)
- With Mock Educational Drug Library

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14151721 |

\$796.85

### BD, Alaris™ 8000 Point-of-Care Unit (PCU)

The Alaris™ 8000 PCU is a customizable infusion delivery system for adult, pediatric, and neonatal care in simulation and training settings. As the original core of the Alaris modular system, it integrates with IV, syringe, PCA, and EtCO<sub>2</sub> modules using a unified interface.

**Compatible Modules:** Alaris™ 8100 IV Pump, 8110 Syringe Pump, 8120 PCA Pump, 8300 EtCO<sub>2</sub> Module

#### **Configurations Available:**

- Standard (No Drug Library)
- With Mock Educational Drug Library

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14151723

\$1,086.67

### BD, Alaris™ 8100 IV Pump Module

The Alaris™ 8100 IV Pump Module is a single-channel infusion pump for continuous or intermittent delivery of fluids, medications, blood, and blood products. Equipped with an LCD screen, it clearly displays the drug name, dosage, and infusion rate for safe, precise administration across adult, pediatric, and neonatal care settings.

#### **Compatible With:**

- Alaris™ 8015 or 8000 PC Unit
- Alaris™ 8110 Syringe Pump Module
- Alaris™ 8120 PCA Pump Module
- Alaris™ 8300 EtCO<sub>2</sub> Module

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14151722 |

\$1,895

## BD Alaris™ Medley Bundle #1 – 8015 PCU + 8100 IV Pump Module

The BD Alaris™ Medley Bundle combines the 8015 Point-of-Care Unit and 8100 IV Pump Module to deliver a realistic, hands-on infusion training experience for nursing simulation labs. Designed for educators, this system helps students develop essential clinical skills using industry-standard technology.

**Bundle Components:** BD Alaris™ 8015 PC Unit + BD Alaris™ 8100 IV Pump Module

**Includes:** Educational Mock Drug Library with Medley Guardrails simulation.

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 114158612 |

\$2,895

## BD Alaris™ Medley Bundle #2 – 8015 PCU + 2x 8100 IV Pump Modules

The BD Alaris™ Medley Bundle includes the 8015 Point-of-Care Unit and two 8100 IV Pump Modules for advanced, hands-on infusion training. This setup allows students to practice dual-infusion management using real-world clinical technology and safety protocols. Designed for simulation labs, it supports primary and secondary infusion programming and includes an educational mock drug library based on Medley Guardrails software.

**Bundle Components:** BD Alaris™ 8015 PC Unit + 2x BD Alaris™ 8100 IV Pump Modules

**Includes:** Educational Mock Drug Library with Medley Guardrails simulation

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14158620 |

\$3,695

## BD Alaris™ Medley Bundle #3 – 8015 PCU + 8100 IV Pump + 8110 Syringe Pump Module

The BD Alaris™ Medley Bundle includes the 8015 Point-of-Care Unit, 8100 IV Pump Module, and 8110 Syringe Pump Module for advanced infusion training. Ideal for nursing simulation labs, this bundle allows students to practice both large-volume and syringe-based infusions using real clinical equipment and safety protocols.

**Bundle Components:** BD Alaris™ 8015 PC Unit + BD Alaris™ 8100 IV Pump Module + BD Alaris™ 8110 Syringe Pump Module

**Includes:** Educational Mock Drug Library with Medley Guardrails simulation.

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14158621

\$4,995

**SIMULATION ESSENTIALS, SIGMA SIM360 HOSPITAL BED**

The Sigma Sim360 is a 5-function electric hospital bed designed for simulation labs. It features head, knee, and height adjustments, battery backup, and removable head/footboards for emergency access—ideal for teaching real-world patient care.

**Key Features:**

- 5-position adjustability (HILO, Fowler, Knee, Trendelenburg, Reverse)
- Instant CPR release, battery backup
- Removable head & footboards, patient controls
- 550 lb weight capacity, 5" casters

**Includes:** new foam mattress

**Condition:** New

**Warranty:** 3-Year Limited Warranty

SKU: 14158700 |

\$4,495

**HILLROM, VERSACARE P3200 HOSPITAL BED**

The Hill-Rom VersaCare P3200 is a feature-rich med-surg bed designed for patient safety and caregiver efficiency. It includes Point-of-Care® nurse controls, HandsFree® foot pedals, One-Button Boost®, SlideGuard® technology, Trend/Reverse Trend positioning, and battery backup.

**Key Features:**

- Bed exit alarm, low height (13"), 500 lb capacity
- 5" locking casters, CPR mode, new foam mattress

**Options:**

- Standard – No Scale
- With Integrated Scale

**Condition:** Refurbished

**Warranty:** 3-Year Limited Warranty

SKU: 14151780

\$5,995

**HILLROM, CENTRELLA MEDSURG HOSPITAL BED**

The Hillrom Centrella Smart+ Bed enhances patient care with advanced safety and mobility features. Includes One-Button Stand Assist, SlideGuard® Technology, motion-activated nightlight, and an intuitive touchscreen interface. Ideal for modern healthcare settings.

**Key Features:**

- 3-Mode bed exit system, CPR release, battery backup
- Brake Not Set alert, 650 lb safe working load

**Includes:** new foam mattress

**Options:**

- Standard – No Scale
- With Integrated Scale

**Condition:** Refurbished

**Warranty:** 3-Year Limited Warranty

SKU: 14151767 |

\$4,995

**HILLROM, P8000 TRANSTAR PROCEDURAL STRETCHER**

The Sigma Sim360 is a 5-function electric hospital bed designed for simulation labs. It features head, knee, and height adjustments, battery backup, and removable head/footboards for emergency access—ideal for teaching real-world patient care.

**Key Features:**

- 5-position adjustability (HILO, Fowler, Knee, Trendelenburg, Reverse)
- Instant CPR release, battery backup
- Removable head & footboards, patient controls
- 550 lb weight capacity, 5" casters

**Includes:** new foam mattress

**Condition:** New

**Warranty:** 3-Year Limited Warranty

SKU: 14151767

\$5,995

**AMICO, HYDRAULIC PATIENT TRANSFER STRETCHER**

The Amico Hydraulic Patient Transfer Stretcher is a cost-effective, brand-new solution designed for simulation labs and educational settings. Built for durability and ease of use, this stretcher features smooth hydraulic height adjustments, multiple positioning options, and enhanced safety for real-world patient care training.

**Key Features:**

- Centrally controlled brake system
- Dual foot pedals, collapsible siderails, ergonomic push handles
- X-ray compatible backrest, retractable fifth wheel steering
- Storage tray, oxygen tank holder, foley bag hook
- 550 lb weight capacity, 8" casters

**Includes:** 4" mattress, permanent IV pole

**Condition:** New

**Warranty:** 3-Year Limited Warranty

SKU: 14160485

\$2,700

**STRYKER, SM104 M-SERIES STRETCHER**

The Stryker SM104 is a refurbished, high-performance stretcher built for emergency and high-traffic medical settings. Its ergonomic, mobile design supports both caregiver efficiency and patient comfort during fast-paced transport.

**Key Features:**

- Dual-end brake and steer controls with 5th wheel for easy mobility
- Trendelenburg/Reverse Trendelenburg positioning
- Power-washable ABS base with integrated utility storage

**Includes:** Refurbished stretcher with storage and transfer board

**Condition:** Refurbished

**Warranty:** 1-Year Limited Warranty

SKU: 14151765

\$4,995

**HILLROM, CENTRELLA ESSENTIAL SIMULATION SUITE BUNDLE**

The Hillrom Centrella Hospital Bed Bundle delivers a modern, hands-on training setup for simulation labs and nursing programs. This cost-effective suite includes a refurbished Centrella bed, a new mattress, bedside cabinet, and overbed table—available in oak, mahogany, or light oak finishes.

**Key Features:**

- Full-electric bed with bed exit alarm and fall prevention features
- Includes new mattress, bedside cabinet (1 or 3 drawers), and matching overbed table
- Realistic, clinical setup designed for student training and patient care simulations

**Includes:** Refurbished bed, new mattress, bedside furniture

**Condition:** Refurbished bed / New furniture

**Warranty:** 1-Year Limited Warranty

SKU: 14158626

\$4,495

**SIGMA SIM360 ESSENTIAL SIMULATION SUITE BUNDLE**

The Sigma Sim360 Hospital Bed Bundle delivers a modern, hands-on training setup for simulation labs and nursing programs. This cost-effective suite includes a Sigma Sim360 Bed, a new mattress, bedside cabinet, and overbed table—available in oak, mahogany, or light oak finishes.

**Key Features:**

- Full-electric bed with bed exit alarm and fall prevention features
- Includes new mattress, bedside cabinet (1 or 3 drawers), and matching overbed table
- Realistic, clinical setup designed for student training and patient care simulations

**Includes:** Refurbished bed, new mattress, bedside furniture

**Condition:** Refurbished bed / New furniture

**Warranty:** 1-Year Limited Warranty

SKU: 14158626

\$3,295

**HILLROM, VERSACARE ESSENTIAL SIMULATION SUITE BUNDLE**

The Hillrom VersaCare Hospital Bed Bundle is a complete, cost-effective setup for nursing schools and simulation labs. This all-in-one package includes a refurbished VersaCare electric hospital bed, a new mattress, a bedside cabinet, and an overbed table—ideal for building a realistic clinical training environment.

**Key Features:**

- 5-function electric bed with full head, knee, and height adjustments
- Includes new mattress, bedside cabinet (1 or 3 drawers), and overbed table
- Durable, easy-to-clean furniture in light oak or dark walnut finish

**Includes:** Refurbished bed, new mattress, bedside cabinet, overbed table

**Condition:** Refurbished bed / New furniture

**Warranty:** 1-Year Limited Warranty

SKU: 14158622

\$20,800

## 3AM TECHNOLOGIES, SIMSERVERX® SINGLE MODULE ADVANCED SMARTCART ESS

The SimServeRx® Advanced SmartCart ESS is a powerful, fully integrated medication management training system designed for simulation labs, nursing programs, and clinical training. It delivers a realistic med-pass experience through advanced software and electronic drawer control, enhancing hands-on learning and patient safety.

### **Key Features:**

- Full SimServeRx software suite with eMAR, patient profiles & reporting
- Electronic drawer system with 9 large or 18 small drawers + bulk storage
- Built-in BCMA barcode scanner & onboard computer for med-pass simulations

**Drawer Options:** 9 Large or 18 Small

**Storage Options:** 3 Drawers or 3 Shelves

**Includes:** Cart, barcode scanner, software license, electronic drawer system

**Condition:** New

**SKU:** 14163217

\$19,000

## 3AM TECHNOLOGIES, SIMSERVERX® DOUBLE MINI MODULE TABLETOP DISPENSING CABINET

The SimServeRx® Double Mini Module Tabletop Cabinet is a compact, high-functioning medication management training system for simulation labs and classrooms with limited space. It offers full automated dispensing functionality in a countertop design—ideal for decentralized med storage simulations.

### **Key Features:**

- Dual-module system with 9 large or 18 small electronic drawers per side
- Integrated computer, barcode scanner, and touchscreen for BCMA training
- Full SimServeRx software suite with eMAR, patient profiling & reporting

**Module Options:** 9 Large or 18 Small per module

**Includes:** Dispensing cabinet, barcode scanner, touchscreen PC, SimServeRx software license

**Condition:** New

**SKU:** 14163232

\$27,400

## 3AM TECHNOLOGIES, SIMSERVERX® 3 MODULE DISPENSING CABINET

The SimServeRx® 3 Module Dispensing Cabinet offers a robust, high-fidelity medication management solution built for simulation. Designed to replicate systems like Pyxis and Omnicell, it supports safe med-pass training with real-world accuracy and flexibility—perfect for nursing schools, clinical training programs, and simulation centers.

### **Key Features:**

- Three configurable modules with drawers or glass door storage for customizable training
- Integrated PC, barcode scanner & touchscreen with SimServeRx software for BCMA and eMAR training
- Pre-loaded patient profiles and simulated formulary from Wallcur® & Demo Dose® for quick setup

**Drawer Options:** 18 Large / 36 Small / Glass Door per module

**Includes:** Dispensing cabinet, SimServeRx software license, control computer, barcode scanner

**Condition:** New

**SKU:** 14163225
